

Annual Index 1964

Volume 45, pp. 1-702

(THE COST ENGINEER Index appears on page 106)

Bucks Off this On

January, 1-55; February, 57-108; March, 109-158; April, 159-215; May, 217-266; June, 287-336; July, 337-387; August, 389-434; Heat Transfer Survey, 435-477; September, 479-538; October, 539-590; November, 591-649; December, 651-702

ABSORPTION, effect on minimum wetting rate, 402

ACHEMA:

1964, 389
exhibition, a history, 300
exhibition—preview, 305
exhibition review, 509

Adiponitrile process, 110

Air:

blast cooling, atmospheric, 464
separation, recent advances, 545

Analogue:

computer as a chemical engineering tool, 72
computers—application to process control, 77
computing—an introduction, 60

Anion exchangers, 522

Argon, production and purification, 549

Aspects of grease technology—Part 1, 395; Part 2, 492

Atmospheric air blast cooling, 464

Automatic weighing and batching of bulk solids, 125

BATCH:

dryers, a guide to the selection of, 574
rectification, optimum conditions for, 133

Biochemical engineering—Part 1, 597; Part 2, 666

Boilers:

338
packaged, 209
steam, 333

Bone degreasing, 652

Bulk:

handling of solids in practice, 129
solids, automatic weighing and batching of, 125

CALCIUM carbonate sludge, hydro-cyclone for beneficiating, 201

Carbon:

analysis, 347
dioxide, 591
dioxide recovery, 428
disulphide purification, 23

Cartridge-type deionisers, regeneration service for, 20

Catalysis, heterogeneous, principles—Part 1, 317; Part 2, 364

Centrifugal:

compressors, 429
pump laboratory, 3
pumps, 139

Centrifuge, 524

Centrifuges, discharge, 375

Chemical engineering below 70°K., 555

Chemical:

engineers, 287
Engineers' Handbook, 540

Chemical industry:

and exports, 293
Hungary's, 355

Chemical plant:

and the Soviet Union, 351
cost index, 42, 108, 146, 213, 269, 335, 371, 423, 531, 587, 638, 702
in the common market: Belgium, 80
selling to Eastern Europe, 348

Chemicals:

and Pfizer, 339
petroleum, 144

Chimneys, reinforced plastic, 584

Chlorate reduction in diaphragm-cell

caustic liquor, 312

Choking two-phase flow, 219

Clay, synthetic, 695

Coal reclaiming process, 582

Combustion:

chambers, 584
research, 522

Compact heat exchangers, 451

Composition of cost indices, 314

Compounding perfumes, 338

Compressors, centrifugal, 429

Computer:

analogue, as chemical engineering tool, 72
compatible, 636
digital, 427
portable, 373
system, 593

Conserving process heat, 35

Continuous weighing equipment, 374

Control:

equipment, 375
valve body, 271

Cooler, graphite air-fin, 463

Copper:

developments, 401
solution, 428

Corrosion:

anti-, paint, 37
protection, high-pressure plant, 258

Cost indices, composition of, 314

Crushing machinery, 40

Crystallisers, mathematical study of, 686

Czechoslovakia, trading with, 360

DEIONISERS:

cartridge-type, 101
cartridge-type, regeneration service for, 20

Detergent:

633
flake, 104

Diaphragm-cell caustic liquor, chlorate

reduction in, 312

Digital computer, 427

Dimethylformamide, 272

Distillation tower, 40

Dry cleaning machine, 583

Dryers:

air, 103
automatic, 273
batch, a guide to the selection of, 574
continuous-band, 144
freeze, 142
physical adsorption, 584
spray, 39, 427

Drying, *Unit Operations Review*, 569

Dust:

collector, wet, 139
explosions, 165

EASTERN Europe, selling chemical plants to, 348

Effluent treatment:

plant, 632
process, 635

Electrical engineering in process plant, 657

Electrohydraulic crushing, 541

Electron-beam furnace, 523

Entrainment separators, 425

Evaporator:

film, 699
liquor, 143
plate, 140

Exports—the chemical industry and, 293

FERTILIZERS:

in Ireland, 160
survey, 36

Filter:

development of horizontal tipping tray, 180
exhaust, 101

Filtration:

- equipment, 425, 632
- Unit Operations Review*, 175
- Fin tubes, new, 475
- Float switch, 102
- Fluorine compounds as by-products of phosphoric acid manufacture, 604
- Fractionating stills, 142
- Fuel:
 - efficiency, 653
 - oxygen scrap, 111
- Fume:
 - extract hoods, 211
 - scrubber, 104
- Furnace:
 - processing, 636
 - reforming, 631

GAS:

- cleaning, 521
- fired ovens, 211
- leak detector, 634
- liquefaction, 592
- scrubber, 427
- Glass-fibre laminates—a call to reason, 675
- Granulating plant, 524
- Grease technology, aspects of—Part 1, 395; Part 2, 492
- Grinding mill, new two-roll, 343

HEAT exchanger:

- compact, 451
- design by computer, 461
- the feasibility of plate, 468
- Heat transfer:
 - characteristics of roughened surfaces, 624
 - literature, exploiting, 446
 - progress, review of current literature, 437
 - survey, 391
 - survey, preface, 435
- Helium, 480
- High-pressure plant—corrosion protection, 258
- Horizontal tipping tray filter, development, 180
- Hot-melt adhesives, 429
- Humidity control, 111
- Hungary's chemical industry, 355
- Hydrocyclone for beneficiating calcium carbonate sludge, 201
- Hydrocyclones, desliming in, 633
- Hydrogen plant, 212

ILMENITE mining, 521

- Industrial gases plant, 697
- Insulation, cellular glass, 698
- Ion-exchange:
 - plant, 209
 - techniques, review, 4
- Iron powder plant, pilot, 696

LEIPZIG fair, 1964, 262

- Liquid:
 - chillers, 376
 - film and pressure drop studies, 191
 - hydrogen containers, 583
 - para-hydrogen, 430
- Low-temperature liquids, vessels, 679

MAGNESIUM injection, 375

- Magnetoplasma dynamics, 219
- Malting, continuous, 104
- Marketing, orientation towards, 159
- Material selection for nuclear fuel re-processing plant dissolver, 253
- Materials:
 - handling plant, 104
 - of construction—general survey, 224
 - selection—some considerations, 245

- Mathematical study of crystallisers, 686
- Metallic corrosion—further chemical engineering aspects, 241

Mill:

- fluid energy, 376
- vibration, 696
- vibratory, 585
- Minimum wetting rate, effect of absorption on, 402
- Mixer:
 - laboratory, 141
 - settlers, high-capacity, general design—Part 3, 413
 - side-entry, 374
- Mixing:
 - segregation, 617
 - solids, 333
 - Unit Operations Review*, 612

NICKEL:

- base alloys—protection against thermal corrosion, 249
- plating, 334
- Nitric acid removal, 481
- Nitrification of effluents, 164
- Nitrogen plants, 376
- Nomogram:
 - refractive indices of liquefied gases, 147
 - vapour pressures of chlorinated hydrocarbons, 587
- Nuclear fuel reprocessing plant dissolver, material selection for, 253

OIL:

- gasification, 288
- refining, 337
- Olefin polymerisation processes, 498
- Optimum conditions for batch rectification, 133
- Order and batch size, a new approach, 415
- Oxygen plant, 105

PETROCHEMICALS, 539

- Petroleum refining—*Process survey*, Part 2, 30; Part 3, 94
- Phosphoric acid manufacture, fluorine compounds as by-products of, 604
- Photochemical side-chain chlorination of toluene—Part 1, 560; Part 2, 619; Part 3, 690
- Pipe:
 - effluent, 334
 - rotator, 331
- Pipes and fittings, 212
- Plastic whiskers, 111
- Plastics expansion, 540
- Plate-heat exchangers, feasibility, 468
- Plating:
 - nickel, 334
 - plant, 210
- Pneumatic conveyor, 39
- Polyethylene, powdered, 427
- Polymeric engineering product—development, 87
- Potassium permanganate, 289
- Powder technology, 350
- Preheaters, gas, 477
- Pressure:
 - boosters, 38
 - drop studies, liquid film and, 191
 - vessel, 585
- Process:
 - control, 699
 - heat, conserving, 35
 - instrumentation, 632
 - plant, repairing, 137
 - simulation for chemical reactor design, 115
- Process survey*:
 - petroleum refining—Part 2, 30; Part 3, 94

Process survey (continued):

- pulp and paper manufacture, 323
- Production and purification of argon, 549
- Progress in heat transfer—review of current literature, 437
- Protection of nickel-base alloys against thermal corrosion, 249
- Pulp and paper manufacture—*Process survey*, 323
- Pump:
 - 333
 - acid, 102
 - air-operated, 140
 - booster vacuum, 207
 - centrifugal, 139, 696
 - corrosive fluids, 583
 - diffusion, 634
 - effluent, 426
 - industrial, 105
 - liquid butane, 208
 - mixed-flow, 299
 - polypropylene, 332
 - pre-mix, 273
 - process, 584
 - Pva emulsion, 142
- Pvc, 479

REACTOR instrumentation, 289

- Refinery, benzole, 142
- Refractory insulating brick, 142
- Rubber industry, 218
- Rutile production, 523

SAFETY:

- 288
- equipment, 376
- Scale-up in chemical engineering, 121
- Screen, vibrating, 695
- Screening, 334
- Screw feeder, barytes, 105
- Scrubber, wet, 697
- Segregation and mixing, 617
- Selling chemical plants to Eastern Europe, 348
- Separation, continuous, 139
- Separator:
 - centrifugal, 698
 - hydrogen, 700
- Sewage:
 - dryer, 700
 - electrolytic treatment, 695
- Sieving machine, 634
- Size reduction:
 - 103
 - Unit Operations Review*, 516
- Slagging gasification, 338
- Slotted angle, 428
- Sludge thickener/clarifier, 373
- Smokeless-fuel plant, 430
- Solid powders, compaction, 406
- Solids:
 - conveying, 374
 - mixing, 333
- Solvay—and chemical engineering, 1
- Soviet Union and chemical plant, 351
- Spray:
 - dryer, 427
 - drying test, 521
- Stainless steel:
 - 581
 - valves, 584
- Steam tables, 339
- Sulphur dioxide, extraction plant, 207
- Sulphur—new factors, 651
- Sulphuric acid, 541
- Superconductivity research, 567
- Synthetic rubber, 430

TALCUM blending system, 132

- Tank, glass-fibre, 586
- Tanker, pressure-discharge, 38

Tanks:
 heated, 102
 plastic, 426
 Temperature control, 272, 430
 Tetrahydrofuran, 390
 Thermal drying of solids in industry, 418
 Thermocouples, 635
 Toluene, photochemical side-chain chlorination of—Part 1, 560; Part 2, 619; Part 3, 690
 Town-gas process, 583
 Transmitter, pneumatic, 141
 Two-roll grinding mill, 343

UNIT Operations Review:
 drying, 569
 filtration, 175

Unit Operations Review (continued):
 mixing, 612
 size reduction, 516
 Uranium oxide, 480

VACUUM degassing plant, 521
Valve:
 ball, 586
 control, 209
 operators, 429
 stainless steel, 584
 stop, 39
 taper plug, 334
 temperature, 375
 Vats, processing, 333
 Vessels for low-temperature liquids, 679
 Vibrator, electrical, 429

Viewpoint, 112, 162, 220, 290, 340, 392, 482, 542, 594, 654
 Vinyl chloride process, 218

WASTE:
 acid recovery, 485
 treatment, radioactive, 160
Water:
 desalination, 390
 treatment, 631
 Weighing equipment, continuous, 374
 Weight classifier, 139
Welding:
 boiler plant, 593
 of 'cat-cracker', 430
 pipework, 208
 Whisky and water, 652

The Cost Engineer Index, 1964

Base and rare metals—table of monthly average prices, 45, 138, 286, 538

Bulk handling by belt conveyors, cost of, 46
Code of practice and categories of cost for control, 157

Contractor's role, 382

Cost:

erected, process plants, indices of, 152, 387

for control, code of practice and categories of, 157

manufacturing, 642

of bulk handling by belt conveyors, 46

Criteria for selection of processes, 380

Feasibility study, 278

Indices of erected costs of process plants, 152, 387

Project planning and control, consultant's role, 537

Profitability:

criterion, for, chemical reactor systems, 647

Profitability (*continued*):

project, 281

Symposium on evaluation of engineering investments:

1. The feasibility study, 278; 2. Project profitability, 281; 3. Criteria for selection of processes, 380;
4. The contractor's role, 382;
5. The role of the consultant in project planning and control, 534; Discussion, 535; Summary, 537
